PROFESSIONAL SUMMARY

Cybersecurity undergraduate specializing in Digital Forensics and Vulnerability Assessment, with hands-on experience in ethical hacking, threat intelligence, and incident response. Holds industry certifications including EC-Council DFE, Microsoft SC-900, and AWS Security. Seeking a cybersecurity internship or IT role to apply expertise in VAPT, malware analysis, and secure system design.

EDUCATION

VIT Bhopal University <i>B.Tech in Computer Science Engineering – Cybersecurity & Digital Forensics</i>	Bhopal, India Aug 2023 – Present
New Age Public School <i>Higher Secondary Certificate (PCM + Computer Science)</i>	Gadarwara, India Apr 2009 – May 2023

EXPERIENCE

AI Cybersecurity Intern <i>RV Innovators</i>	Jan 2026 – Present <i>Bhopal, India (Hybrid)</i>
- Spearheaded the development and deployment of Satya Net, an AI-powered digital forensics and cyber awareness platform focused on detecting digital deception and multimodal misinformation. - Leveraged Google AI Studio and Gemini models to architect complex forensic workflows utilizing structured JSON outputs and automated tool-calling via Google Search grounding. - Designed a responsive, production-ready frontend using React and Tailwind CSS, and integrated <i>Dharma Bot</i> to provide automated, real-time threat intelligence and cyber awareness Q&A. - Bridged the gap between AI engineering and cybersecurity logic by automating threat vector analysis and neural artifact/deepfake scanning pipelines without traditional ML infrastructure.	

PROJECTS

Satya Net <i>AI-Powered Digital Forensics & Cyber Awareness Platform</i> Link	Jan 2026 – Present
- Architected a full-stack digital forensics platform integrating Google Gemini AI for multimodal misinformation analysis, deepfake detection, and automated threat intelligence. - Implemented structured JSON outputs and tool-calling with Google Search grounding to orchestrate forensic workflows without traditional ML infrastructure. - Built responsive frontend using React and Tailwind CSS; deployed Dharma Bot for real-time cyber awareness Q&A.	
Technical Research Portfolio <i>Threat Intelligence & Forensic Methodologies</i>	Feb 2024 – Present
Maintained an expanding research portfolio on threat intelligence, MITRE ATT&CK techniques, and forensic analysis aligned with NIST and EC-Council standards.	

TECHNICAL SKILLS

Cybersecurity & Forensics: Digital Forensics, VAPT, Penetration Testing, Threat Intelligence, Incident Response, Malware Analysis, IAM, Cryptography
Cloud & Networking: AWS (EC2, S3, VPC), Cloud Security, TCP/IP, OSI Model, Firewalls, VPNs, Blockchain
Tools & Platforms: Wireshark, Burp Suite, Nmap, Metasploit, Autopsy, FTK Imager, Kali Linux, Git, VS Code
Programming: Python, Java, SQL, Bash Scripting
Frameworks & Standards: OWASP Top 10, MITRE ATT&CK, NIST Cybersecurity Framework

CERTIFICATIONS

Digital Forensics Essentials (DFE) v1 – EC-Council	Nov 2025–Nov 2028
Microsoft Certified: Security, Compliance & Identity Fundamentals (SC-900) – Microsoft	Jun 2025
AWS Educate: Getting Started with Security – Amazon Web Services	Dec 2025
Foundation Level Threat Intelligence Analyst – arcX	Oct 2024
Google IT Support Certificate – Google	Dec 2025

ACHIEVEMENTS

Champion – 10th State Level UCMAS Mental Arithmetic Competition (Top speed and accuracy)
2nd Runner-Up – 20th International Level UCMAS Competition
Volunteer – ISKCON Bhopal (2023–Present), organizing cultural and educational events
